WHO WE ARE

About Drilson India

DRILSON INDIA (OPC) PVT. LTD. is a Vadodara-based industrial services company supporting refinery, petrochemical, manufacturing and infrastructure work environments.

We provide coordinated field support across instrumentation and electrical services, scaffolding, industrial painting, passive fireproofing and manpower deployment. Our delivery approach is built around clear scope review, safe mobilization, disciplined supervision and practical reporting.

OUR APPROACH

- Understand the work front and client priorities
- Mobilize suitable supervision, trades and support manpower
- Coordinate safety, quality, progress and handover requirements

COMMITMENT

Message from the Director

Dear Valued Clients and Partners,

Thank you for considering DRILSON INDIA as your industrial service partner. Our objective is simple: understand the requirement clearly, deploy the right people and execute every assigned activity with attention to safety, quality and schedule.

We believe dependable site performance comes from practical planning, responsible supervision and open coordination with the client team. This approach guides our work across instrumentation, electrical, scaffolding, painting, fireproofing and manpower services.

We look forward to contributing to the safe and successful delivery of your projects and maintenance requirements.

M K GUPTA
Director

INTEGRATED CAPABILITY

Our Services

IE Instrumentation & Electrical

Installation support, cable routing, termination assistance, testing coordination and field documentation.

SC Scaffolding

Planned access, erection, modification, inspection coordination and dismantling.

PT Industrial Painting

Surface preparation, coating application, touch-up and maintenance painting.

FP Fireproofing

Application support, repairs, thickness checks and passive fire protection scope.

MP Manpower Services

Supervisory, skilled and support manpower aligned with work-front priorities.

QA Site Coordination

Daily deployment, progress tracking, housekeeping, punch closure and handover support.

EXECUTION CAPABILITY

Our Expertise

We combine planning, manpower and site coordination to support active industrial work fronts.

Instrumentation support

Cable trays, routing, glanding, termination and loop-check coordination.

Electrical support

Cable laying, panels, lighting, earthing and pre-commissioning assistance.

Scaffolding execution

Access planning, erection, modification, tagging and dismantling control.

Protective coatings

Surface preparation, coating systems, DFT checks and maintenance painting.

Passive fire protection

Application support, repair, thickness verification and punch closure.

Manpower deployment

Supervisors, skilled trades and helpers with attendance and progress controls.

COMPANY DIRECTION

Our Vision and Mission

V

OUR VISION

To be a trusted industrial service partner known for safe execution, responsive coordination and dependable delivery across project and maintenance environments.

M

OUR MISSION

- Deliver work with clear safety and quality controls
- Provide practical solutions aligned with client specifications
- Build a capable and accountable technical workforce
- Maintain transparent communication and progress reporting
- Support timely completion and responsible handover

SAFETY FIRST

Safety Policy

DRILSON INDIA is committed to maintaining a safe, healthy and incident-free workplace. We follow client rules, applicable procedures and task-specific controls before and during execution.

- Complete induction, permit and task briefing requirements
- Identify work-front hazards and communicate control measures
- Use suitable PPE, tools and access arrangements
- Maintain good housekeeping and safe material movement
- Report unsafe conditions and support corrective action
- Coordinate inspections, observations and close-out records
- Encourage every team member to stop and clarify unsafe work

SAFETY FIRST QUALITY ALWAYS

INDUSTRY RELATIONSHIPS

Client Portfolio

Our capabilities are relevant to leading refinery, engineering, manufacturing, pharmaceutical, cement and infrastructure organizations.

- Essar
- IOCL
- UltraTech
- JSW
- Torrent Pharma
- Cipla
- Jubilant
- Manikgarh Cement
- Dalmia Group
- Renuka Sugars
- Praxair
- NFL
- Toyo
- thyssenkrupp

Industries served: Oil & Gas | Petrochemical | Cement | Pharmaceutical | Power | Manufacturing

EXPERIENCE AREAS

Project and Site Capability

Refinery and petrochemical	Instrumentation, electrical, scaffolding, painting and manpower support
Industrial shutdowns	Rapid mobilization, access arrangements, skilled trades and daily control
Cement and manufacturing	Maintenance painting, scaffolding and workforce deployment
Pharmaceutical facilities	Controlled maintenance support and site coordination
Fireproofing scope	Application, repair, inspection coordination and punch closure
Project construction	Supervision, skilled manpower, reporting and handover support

Solutions Built for Plant Needs

Clear scopes help clients approve, mobilize and monitor work faster.

Shutdown Support Package

Rapid mobilization of supervisors, skilled trades and helpers, supported by daily attendance, progress tracking and work-front coordination.

Insulation & Fireproofing

Project-based insulation and fireproofing for instrument cable trays and ducts, with execution, inspection coordination and punch closure.

Scaffolding & Painting

Project-based scaffolding and industrial painting planning and execution, including access arrangements, surface preparation and DFT checks.

E&I Field Support

Cable trays, routing, glanding, termination assistance, panels, lighting, earthing, testing coordination and field documentation.

ONE PARTNER. COORDINATED SITE DELIVERY.

Safety | Supervision | Skilled manpower | Reporting | Handover

Why Engage Drilson India

Integrated project capability

Instrumentation, electrical, scaffolding, industrial painting, insulation, fireproofing and manpower support coordinated through one accountable site team.

Defined project services

Project scope can include scaffolding, industrial painting, insulation, and fireproofing limited to instrument cable trays and ducts, with execution and inspection control.

Relevant industrial exposure

Capabilities aligned with refinery, petrochemical, cement, pharmaceutical, power, manufacturing and infrastructure work environments.

Responsive workforce deployment

Supervisors, skilled trades and support manpower deployed according to client priorities, access availability and project schedules.

From Requirement to Handover

1

Scope Review

Understand work fronts, specifications, access, permits and client priorities.

2

Execution Plan

Define scaffolding, painting, insulation, fireproofing, manpower, tools, safety controls and reporting. Fireproofing covers instrument cable trays and ducts only.

3

Mobilization

Coordinate induction, permits, deployment and readiness for productive work.

4

Daily Control

Track safety, attendance, progress, constraints, quality checks and corrective actions.

5

Close-out

Support inspection, punch closure, documentation and responsible handover.
